Promoting Maternal and Infant Mental Health: The Community-Based Perinatal Support Model for Mothers

MAY 20, 2016 1:30 P.M. – 4:30 P.M.

HOSTED BY HALLMARK HEALTH SYSTEM & OFFICE OF MIDDLESEX DISTRICT ATTORNEY MARIAN RYAN

TRAINING LOCATION: 15 COMMONWEALTH AVE., SUITE 300, WOBURN, MA 01801

This important training will better inform current efforts to address the intersection between Maternal Substance Use Disorders and Perinatal Mood Disorders.

On completion the participant will:

- ◆ Explain the prevalence, and impact of Perinatal Mood Disorders & Substance Use on maternal health, birth outcomes and infant development
- ◆ Discuss risk factors, including impact of poverty and trauma, for perinatal women
- ◆ Identify 4 barriers to care that negatively impact perinatal women accessing treatment
- ◆ Describe how the Community-based Perinatal Support Model (CPSM) addresses all 4 barriers to care at individual, provider, system and policy levels
- ◆ Explain the sequence of interventions for the successful implementation of CPSM including effective screening protocols, triage and community referral protocols
- ◆ Describe the central role community partners have in developing the leadership team in the CPSM
- ◆ Identify 3 characteristics of community readiness to implement public health initiatives such as CPSM

This model has been successfully adapted in Franklin Co. to address the very critical public health issue of Maternal Depression and Substance Use Disorders
